

Dr. Dale S. Deardorff

Dale S. Deardorff, DM, is a dynamic, energized leader known for his ability to change the way organizations think and act.

A self-proclaimed leadership futurist and acknowledged authority on process and systemic innovation methods; he is a mentor and a catalyst of renewal to many forward thinking profit and non-profit organizations. Dale has a passion for imparting the values of goals of sustainability while balancing the social contradictions of ethics and personal choice.

For over 10 years, he has run a consulting company that focuses on training and teaching "Thinking" tools for Innovation and Organizational performance. He is a prolific extroverted speaker, prominent facilitator, and pioneer in the development & integration between individual thinking preferences and team based performance outcomes. With over 30 years of previous professional experience as a project/program manager, a training consultant, a research and development director, an innovation and a change agent, Dale has often been called a renaissance man.

As the Director of Innovation and Strategic Thinking for the Rocky Peak Leadership Center (RPLC) he is focused on the development and implementation of the ©Innovation Cube and SCOR Σ International Innovation Research Program (IIRP) utilizing in-house designed qualitative/quantitative innovation measurement and grading toolsets.

He coordinates the deployment of Leadership and management training and facilitation for current and future customer stakeholders. Also, he Identifies opportunities for profit & non-profit Sustainability events utilizing PRIZM. Dr. Deardorff promotes and oversee RPLC strategic relationships with external entities including business, government and partner organizations.

Dale is responsible for the development and implementation of regional strategic and operational plans for the leadership consulting/contracting team that addresses: mission, staff development issues, access, quality improvement, financial performance, market assessment and analysis, human resources and information management.

Additionally he brings industry thought leaders together with experts to seed innovative thinking and to enable collaboration in design, technology, products, services, and business models.
