

Wild Imaginations

Roll the Imagination Cubes to create an Idea Story to solve Wicked Problems,

Learn the Secret Sauces of Creative Thinking

Almost all organizations are required to deal with being responsible and realistic every day to create an environment of “what is.” Very few people get the opportunity to explore an environment of “*What Can Be.*” To accomplish that, impossible opportunity thinking requires the acceptance and understanding of our wild imaginations. Albert Einstein shared that: “*Imagination is more important than knowledge.*”

The Wild Imaginations Workshop allows a group or team to experience the five different imagination techniques that form new images and idea triggers. The 1-day training session allows the participants to explore the interconnected 3-step imagination process. Participants will learn how to create elegant ideas from anywhere, and at any time.

\$750.00 a person with a group of 15 or more. All participants will receive a set of our Wild Imaginations Cards

Contact us at 818-730-8203
